

Dirghasthai Aaybridhi Yojana

Brief Overview of the Project

Use of tractor and its equipment can lead to higher farm incomes for farmers. By reducing production costs, improving crop yields, and enabling diversification into high-value crops, tractors contribute to the economic viability of farming operations.

TRY is implementing the scheme Named "Aaybridhi and Aajivika Vikas Yojana" under Tribal Welfare Dept. Ranchi Jharkhand for Distribution of Tractor and its equipment's to approved eligible farmers.

Project Objective

- To Increase productivity of farmers by ensuring timely land preparation, proper seedbed preparation, and efficient planting, leading to improved crop yields.
- To reduce labor costs and increase operational efficiency, thereby lowering overall production costs for farmers.
- To use advanced technologies enable precision agriculture practices.
