**Prepared by: MONKURBANE CONSULTANCY PVT.LTD.**

**Address: H-138, Mandal Para, New Colony, Saraiedhela  
Dhanbad, Jharkhand – 826001**

**Date: 15<sup>th</sup> Nov 2024.**

MONKURBANE CONSULTANCY PVT.LTD. is a dedicated organization specializing in providing technical support for health projects across various regions. With a focus on enhancing healthcare delivery systems, MONKURBANE CONSULTANCY PVT.LTD. collaborates with healthcare providers, NGOs, and governmental bodies to implement effective health interventions.

Our expertise encompasses a wide range of services, including project evaluation, strategic planning, and capacity building. We leverage data-driven insights to assess the effectiveness of health programs and identify areas for improvement. By fostering collaboration and innovation, MONKURBANE CONSULTANCY PVT.LTD. aims to strengthen health systems and ensure sustainable health outcomes for communities.

### Introduction

This assessment report provides an overview of the activities and impact of the TRY Welfare Hospital and its Mobile Medical Unit (MMU) services in the districts of Dumka and Ranchi, Jharkhand, from April 2020 to March 2023. The aim is to evaluate the effectiveness of the services provided, identify areas for improvement, and recommend future actions.

### Background

TRY Welfare Hospital has been operational in Dumka and Ranchi, focusing on delivering essential healthcare services to underserved communities. The MMU service complements the hospital by reaching remote areas and providing medical assistance to those who have limited access to healthcare facilities.

### Objectives

1. To assess the healthcare services provided by TRY Welfare Hospital.
2. To evaluate the impact of the MMU services on community health.
3. To identify challenges faced during the reporting period.
4. To recommend strategies for enhancing service delivery.

### Methodology

The assessment utilized a combination of qualitative and quantitative methods, including:

- Data Collection: Review of hospital records, patient feedback, and service utilization statistics.
- Interviews: Discussions with healthcare staff, patients, and community leaders.
- Field Visits: Observations of MMU operations and hospital services.

## Community Feedback.

These health outcomes and community feedback indicate that TRY Welfare Hospital has made significant strides in improving health access and outcomes in the region.

## Recommendations.

- Increase Staffing: Recruit additional healthcare professionals to meet growing demands.
- Enhance Awareness Programs: Conduct targeted outreach to educate communities about available services.
- Strengthen Supply Chains: Develop partnerships with suppliers to ensure a steady flow of medical supplies.
- Monitoring and Evaluation: Establish a robust monitoring system to track health outcomes and service impacts more effectively.

## Conclusion

The assessment of TRY Welfare Hospital and its services in Dumka and Ranchi from April 2020 to March 2023 highlights the significant impact of the hospital and its Mobile Medical Unit in improving healthcare accessibility and outcomes in these regions. With a total of 26,840 patients treated, the hospital has successfully addressed a wide array of health issues, demonstrating a commitment to comprehensive care across multiple specialties.

The high immunization rates and the extensive health education sessions reflect the hospital's proactive approach to disease prevention and community health promotion. Furthermore, the treatment success rates indicate effective management of common health conditions, underscoring the quality of care provided. Community feedback shows a positive reception of the services, with a notable percentage of patients expressing satisfaction. However, challenges such as staffing shortages and awareness in remote areas persist, highlighting areas for further improvement.
